

Rail Fence- 12" Block 68x56

Strip cutting

Cut strips @ $2\frac{1}{2}$ " and at least 7" long (to cut 4 units from the same strip set, strips must be 25"). Sew together in sets of three.

Borders- cut 6 strips @ $4\frac{1}{2}$ "

Cut strip sets into $6\frac{1}{2}$ " squares, stitch 4 stripped squares together to form a larger square taking care to rotate each unit as in diagram. Make 20 blocks.

Sew blocks together in rows of 5; sew 4 rows together to make top.

Add borders

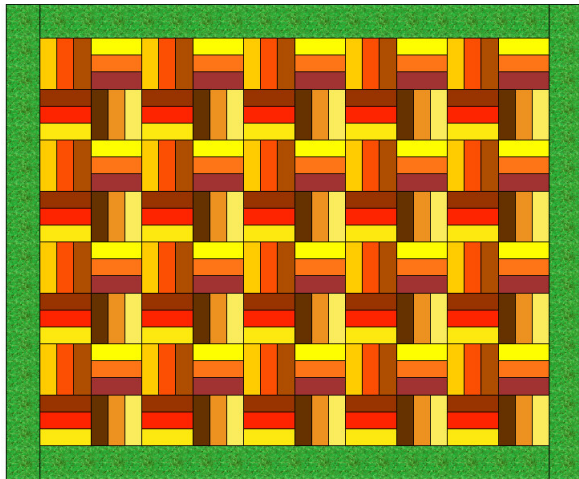

Diagram shows each unit in the same "color" scheme, but this quilt is successful in a scrappy scheme also.
